

## Elements Compounds and Mixtures

(Drawing)

**Directions:** Draw the following using circles either filled in or not. If the circles are touching it represents a bond.

1. A pure substance of diatomic compounds
2. A mixture of monatomic elements and diatomic elements.
3. A pure substance diatomic elements
4. A mixture of 2 different compounds.
5. A pure substance, monatomic elements.
6. A mixture of a triatomic compounds and a diatomic elements.
7. A mixture of two different triatomic compounds.
8. A mixture of two different diatomic elements
9. A pure substance – Water molecules.
10. A mixture of three different compounds.
